Lansiranje potpuno novog dijagnostičkog alata Knorr-Bremse Diagnostics

Dijagnostički alat za sisteme kamiona i prikolica zasnovan na vodećem softveru na tržištu Jaltest Diagnostics

Zajedno sa kompanijom Cojali, Knorr-Bremse najavljuje lansiranje potpuno novog dijagnostičkog alata poznatog kao **Knorr-Bremse Diagnostics**, zasnovanog na korisničkom interfejsu i konceptu toka rada softvera za dijagnostiku komercijalnih vozila više brendova **Jaltest**. Ovaj novi softver **zamenjuje** pakete softvera **NEO** za sisteme kamiona i **ECUtalk®** za sisteme prikolica.

Knorr-Bremse Diagnostics se mora koristiti sa hardverom Jaltest Link kompanije Cojali; za maksimalnu kompatibilnost se preporučuje korišćenje hardvera Jaltest Link V9.

Brzi pregled:

- Novi dijagnostički alat za korisnike nakon stavljanja na tržište zasnovan na korisničkom interfejsu i konceptu toka rada Jaltest.
- Model pretplate sa ažuriranjem tri puta godišnje.
- Pokrivenost svih sistema kamiona i prikolica Knorr-Bremse u jednom alatu.

TRUCKSERVICES

Pokrivenost sistema kamiona

Svi sistemi kamiona kompanije Knorr-Bremse koji su prethodno mogli biti dijagnostikovani pomoću alata NEO Green i NEO Orange Alltrucks mogu da se nastave dijagnostikovati sa alatom Knorr-Bremse Diagnostics, na osnovu pristupa toka rada Jaltest. To uključuje pokrivenost ABS, EAC, EPB, EBS, ELC, iAPU, ADAS i SCM.

Pokrivenost sistema prikolica

Osnovna dijagnostika, koja uključuje čitanje kodova grešaka, brisanje memorije kodova grešaka, čitanje vrednosti parametara, izvođenje provera sistema, je dostupna za sve sisteme Knorr-Bremse Trailer-EBS (KB4-TA, TEBS 4, TEBS G2.x i iTEBS X).

Napredna dijagnostika, koja pokriva funkcije koje mogu modifikovati karakteristike prikolice i stoga moraju da se izvode pažljivo i uz odgovarajuću obuku, zahtevaju jedno od sledećeg:

- korišćenje režima Jaltest Expert Mode,
- ili – za sisteme koji su u proizvodnji i koji mogu podlegati najnovijim propisima o sajber bezbednosti i upravljanju ažuriranjem softvera (UN ECE R155 odnosno UN ECE R156) – akreditivima za pristup potpuno novoj platformi OCT (alat za konfiguraciju na mreži) zasnovanoj na oblaku. U početku se OCT treba koristiti za naprednu dijagnostiku u kombinaciji sa sistemima iTEBS X. Podrška za naprednu dijagnostiku sistema TEBS G2.2 će biti dodata OCT-u u prvoj polovini 2025.

The OCT will be described in due course in a separate Up2Date, with a specific focus on applications for the aftermarket.

Gde kupiti

Softverski paket, kao i potreban hardver, mogu da se kupe isključivo putem ovlašćenih distributera kompanije Jaltest.
