AGV

## AGRICULTURAL EQUIPMENT

It covers a wide variety of brands, models and systems, and it offers a large catalogue of cables to carry out direction connections in agricultural equipment.

Just like the rest of licences, Jaltest AGV offers the best technical information of the sector, and it will help you during the whole repair process through easy and intuitive guides.

Jaltest AGV includes advanced functions such as:

1. Calibrations
2. Parameter modification
3. System checks
4. Component actuation
5. And much more...

JALTEST AGV IS THE JALTEST DIAGNOSTICS KIT FOCUSED ON THE DIAGNOSTICS AND MAINTENANCE OF ALL TYPE OF AGRICULTURAL EQUIPMENT. THEREFORE, IT IS IDEAL FOR WORKSHOPS THAT REPAIR TRACTORS, HARVESTERS, FORAGE HARVESTERS OR GRAPE HARVESTERS, AMONG OTHERS.

## COVERAGE

**jaltest**  
cv

Diagnostics equipment aimed for workshops where repair and/or maintenance services are performed in several types of commercial vehicles, such as: trucks, buses, trailers, LCVs or pick-up trucks.

Jaltest CV allows diagnostics in all commercial vehicles. Jaltest CV coverage includes truck, bus, light commercial vehicle, pick-up trucks, trailer and semi-trailer.

Jaltest CV includes advanced functions such as:

1. Calibrations
2. Parameter modification
3. System checks
4. Component actuation
5. And much more...

## COVERAGE

**jaltest**  
OHW

The Jaltest OHW kit has been developed to perform maintenance and diagnostics tasks in off-highway equipment, such as cranes, excavators or dumpers, as well as in stationary engines, cleaning machines or road maintenance equipment, among others.

Jaltest OHW includes complete technical information and troubleshooting guides, which make it the benchmark diagnostics tool of the sector.

Jaltest OHW includes complete technical information and troubleshooting guides, which make it the benchmark diagnostics tool of the sector.

Jaltest OHW includes advanced functions such as:

1. Calibrations
2. Parameter modification
3. System checks
4. Component actuation
5. And much more...

## COVERAGE

# jaltest MHE

Jaltest MHE (Material Handling Equipment) is the pioneering repair kit in the repair sector of material handling equipment due its multiple advantages and possibilities when it comes to performing diagnostics and maintenance efficiently in forklifts, telescopic handlers, lift platforms and derivatives.

It offers complete coverage, including new brands, models and systems three times a year, which guarantees a constant update of its capabilities.

Just as the rest of the kits, Jaltest MHE offers technical information, troubleshooting guides and many other useful resources for technicians during the repair of this type of equipment.

Jaltest MHE includes advanced functions such as:

1. Calibrations
2. Parameter modification
3. System checks
4. Component actuation
5. And much more...

## COVERAGE

Jaltest Marine is our newest kit. The wide expertise of Jaltest Diagnostics in land vehicles has allowed us to successfully pursue the design of a complete maintenance and diagnostics tool for vessels, jet skis, outboard and inboard engines and stationary engines.

With a wide coverage of models, brands and systems, Jaltest Marine is totally orientated toward those technicians that provide nautical repair services. We have collected the best technical information for them and we have developed step-

by-step troubleshooting guides, turning Jaltest Marine into a cutting-edge tool in the sector.

Jaltest Marine includes advanced functions such as:

1. Calibrations
2. Parameter modification
3. System checks
4. Component actuation
5. And much more...

10. Troubleshooting guides by fault codes.

### JALTEST IN NUMBERS

The screenshot shows the Jaltest software interface. At the top, there's a navigation bar with 'jaltest BY COJALI' and 'GRP'. Below it, a breadcrumb trail reads 'TRACTOR > JOHN DEERE > 7R Series > CCU, Body computer'. The left sidebar contains a 'Diagnostics menu' with numbered items 3 through 9. The main area is titled 'DIAGNOSIS' and displays 'FAULT CODE(S) STORED IN MEMORY: 4'. A table lists four fault codes with their descriptions and status icons. A legend at the bottom identifies the icons for Active, Inactive, and Other fault codes.

Code	Description	Status
567.05 x1	Differential Lock Solenoid valve. Front axle. Damaged circuit.	Active (Red X)
1638.04 x1	Hydraulic Oil Temperature Sensor. Circuit fault. The voltage in the circuit has gone below the permitted level.	Inactive (Green X)
1883.13 x1	Rear PTO (Power Take-Off). Not calibrated.	Other (Yellow X)
524235.06 x1	4-Wheel Drive Solenoid. Current too high. (Short circuit to ground.)	Other (Yellow X)

Legend:  
 [Red X] ACTIVE FAULT CODE  
 [Green X] INACTIVE FAULT CODE  
 [Yellow X] OTHER FAULT CODE STATUS

## SOFTWARE

## ADDITIONAL MODULES

### PASS-THRU

Jaltest has the additional Pass-Thru module, which enables communication through the SAE J2534 protocol with the manufacturer's software to perform:

1. Control unit updates
2. Calibrations
3. Unit reprogramming
4. Agricultural equipment analysis

This makes it possible to reduce dependence with proprietary hardware, decreasing costs and increasing the productivity.

## SOFTWARE

## ADDITIONAL MODULES

### Jaltest GRP

GRP (Garage Resource Planning) is the workshop management program that allows you to organise and manage its activity. GRP is included in Jaltest.

#### GRP BASIC

It allows you to store and manage clients, agricultural equipment and reports in a simple and easy way.

CLIENT LIST

REPORTS

#### GRP SYNCHRO

Upgrade by storing all your clients, agricultural equipment and reports in the cloud.

Synchronise automatically all stored data in all your devices.

#### GRP ENTERPRISE

Manage one or more workshops completely. Synchronise all stored data, even if it is located in different workshops!  
Access all Jaltest GRP functionalities.

#### GRP NETWORK

It manages the workshop network by choosing which and where data must be shared, therefore obtaining greater privacy.

## JALTEST GRP FUNCTIONALITIES

### CLIENT LIST MANAGEMENT

### VEHICLE LIST MANAGEMENT

### REPORT MANAGEMENT

- Diagnostics reports
- Maintenance reports

### WORKSHOP MANAGEMENT

- Work orders
- Tasks
- Workshop time reports

### WORKSHOP RECEPTION MANAGEMENT

- Reception forms
- Work orders management

### HUMAN RESOURCES MANAGEMENT

### ANALYTIC DATA OF YOUR FLEET OR NETWORK

- Tool use
- Equipment more frequently diagnosed
- More frequent fault codes

## SOFTWARE

## ADDITIONAL MODULES

# jaltest DATA-LINK

Jaltest DATA-LINK is a device that allows the user to use Jaltest hardware with the software of different manufacturers and without using the original hardware.

Jaltest DATA-LINK supports all generic communication protocols RP1210, SAE J1939, SAE J2534 and OBD.

This solution also includes a software for the diagnostics of generic faults.

Therefore, all solutions can be grouped in one single device.

## SOFTWARE

## DIAGNOSTICS MENU

### 1. SYSTEM DISPLAY

Real-time live data display of agricultural equipment diagrams, enabling fast assessment of the system performance.

### 2. DATA RECORDER

This function allows the user to make tests while the agricultural equipment is moving and, at the same time, the record of measurements and fault codes. This way, it is possible to know the exact moment at which a fault code occurred.

### 3. VIRTUAL INSTRUMENTS/GRAPHS

Visual aid for the technician to check values and understand the current status of any system available in the agricultural equipment.

### 4. SYSTEM SCAN

This function allows the user to scan the available systems in the selected model. During the system scan, fault code reading of every available system takes place, including their identification data. Later, every fault code found can be cleared.

### 5. VEHICLE VIN DETECTION

It allows the detection of the VIN or chassis number of the agricultural equipment with just one click.

### 6. SHORTCUT TO SPECIAL FUNCTIONS

Optimize repair times at the shop with direct access to relevant repair processes.

**AND MUCH MORE!**

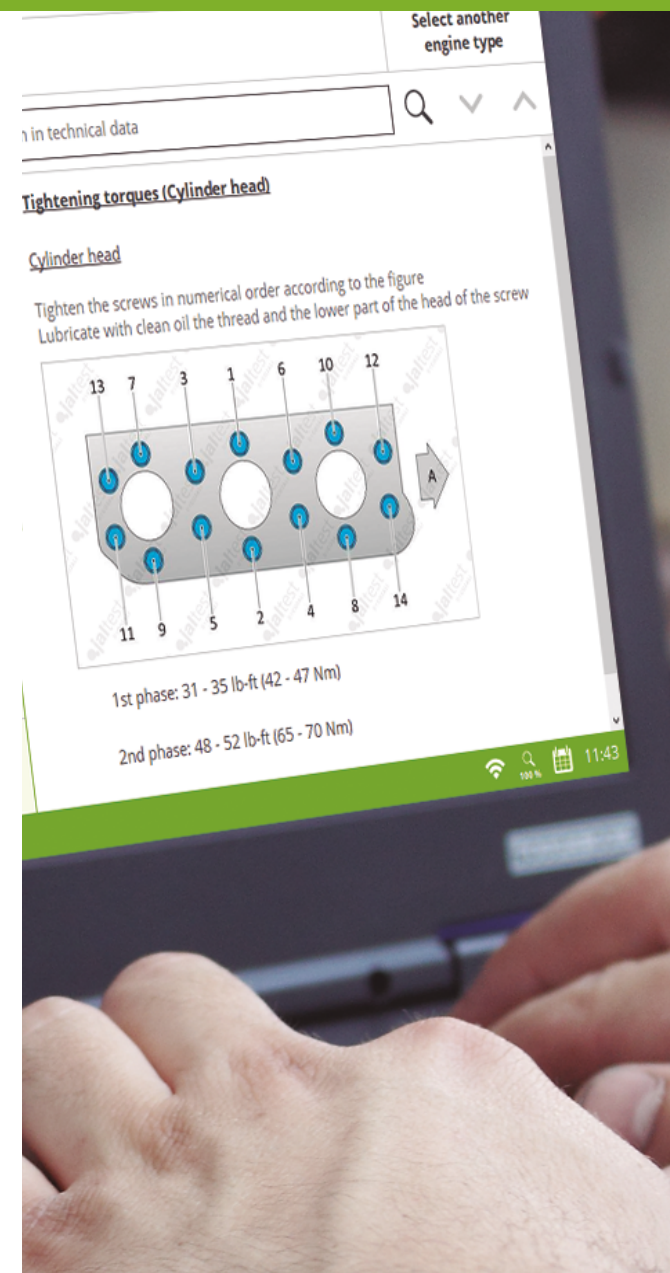

## SOFTWARE

## TECHNICAL INFO

The technical information of Jaltest includes:

- 1. System technical data:** Specifications of the operation ranges of sensorised components, as well as their location and pinout.
- 2. Wiring, system and fuse diagrams:** Simple, interactive and easy-to-navigate diagrams for the different system configurations.
- 3. Equipment maintenance data:** A complete data base with all the information needed to perform the proper maintenance of the selected agricultural equipment.
- 4. Equipment technical data:** Specific OEM standards for the most common equipment adjustments (adjustment torques, reference measurements, parameters, diagrams, repair times, etc.).
- 5. Troubleshooting guides by symptoms:** Step-by-step guides that allow the diagnostics of equipment by the symptoms.
- 6. Technical releases:** Bulletin on technical service, launches and procedures with updated information, published by the OEMs, about any modification of the service and procedures, reviewed parts, etc.
- 7. Troubleshooting guides by fault codes:** Intuitive and easy-to-follow troubleshooting guides, for both mechanical and electronical problems, linking directly to the actions to be carried out.

## HARDWARE

### LINK V9

LIGHT, FAST,  
EXCEPTIONAL.

#### MAXIMUM CONNECTION SPEED

It performs diagnostics in every control unit of the vehicle at a hitherto previously unknown speed.

#### PROTECTED USB AND SUBD26 CONNECTORS THANK TO THE POKA YOKE DESIGN

#### HIGH-PERFORMANCE, RUGGED AND RELIABLE ELECTRONICS

Greater connectivity, new supported communication protocols and extended multiplexor.

#### IMPACT ABSORPTION

Design with a rugged covering that cushions small bumps, protects against scratches and enables the seal closure of the device, preventing the inlet of dirt and water (IP40).

#### COMPACT AND LIGHT

## HARDWARE

### JALTEST DIAGNOSTICS HARDWARE KIT

All Jaltest products have been designed to meet the demands and needs of the workshop mechanics and the most demanding road assistance needs. They are designed and built to face any extreme work or weather conditions.

Jaltest Diagnostics Hardware Kit can be configured according to the workshop needs. There is a wide variety of connectors depending on the types of brands and models of agricultural equipment.

JALTEST DIAGNOSTICS HARDWARE KIT  
ALLOWS CONNECTION TO ALL THE TYPES  
OF AGRICULTURAL EQUIPMENT AVAILABLE  
WITHIN JALTEST COVERAGE.

## HARDWARE

## SUPPLEMENTS AND ACCESSORIES

JALTEST OFFERS A WIDE VARIETY OF ACCESSORIES AND SUPPLEMENTS THAT LEADS TO UNPARALLELED DIAGNOSTICS OF AGRICULTURAL EQUIPMENT.

### JALTEST RUGGED PC

Jaltest Rugged PC is optimised for the use of Jaltest in the most demanding conditions.

- Windows 11 Pro
- Rugged and exclusive design
- Liquid-resistant keyboard/touchpad.
- Keyboard available in several languages
- User-replaceable battery

### JALTEST RUGGED PAD

Jaltest Rugged Pad is a high-performance tablet that enables a more versatile use of Jaltest.

- Windows 11 Pro
- 10" Screen
- User-replaceable battery
- Digitiser pen
- Rugged and exclusive design

### WORKSTATION

The Jaltest workstation is the best way of transporting Jaltest. It is specially designed to perform diagnostics in all agricultural equipment with maximum comfort.

JALTEST UNIVERSITY

TECHNICAL SUPPORT

## SERVICIOS

## JALTEST UNIVERSITY

Our Jaltest University division gathers the entire Jaltest training offer, from courses traditionally taught on-site to online courses or webinars. This way, we have adapted to the new needs for universal and quality training at the disposal of any professional in the sector.

Jaltest University is aimed at:

- Workshops
- Manufacturers
- Distributors
- Students
- Other professionals of the sector

Jaltest University includes the following topics, among others:

- Diagnostics
- Engine management
- Anti-pollution system
- Pneumatics
- Electricity and communication protocols

## E-LEARNING COURSES

Jaltest University offers training available to everyone, anytime and anywhere through Jaltest e-learning.

It is an online training platform that allows technicians to learn about topics related to commercial vehicles, agricultural equipment and OHW equipment.

## CUSTOMISED TRAINING

In Jaltest University, we also offer customised courses for our official distributors, that can be taught directly at their facilities.

The commercial courses are intended for the commercial training of our distributors' staff and the training courses for workshops are addressed to professionals of client workshops of our official distributors, being totally adapted to their needs.

## SERVICIOS

## CUSTOMER SERVICE AND PRODUCT SUPPORT

Jaltest provides worldwide Product Support.

Jaltest Product Support covers all the consultations related to the operation of Jaltest diagnostics device prior to the connection with the equipment.

1. Doubts during the software installation process.
2. Support in the connection with the equipment.
3. Information on the device coverage.
4. Information on the fault codes related to the connection of the equipment.
5. Expert Mode code generation.
