1	Chassis road simulator	DL-4.5YYJ Button version	Maxi.lifting height: 1100mm work temperature:-30°+50° Lifting capacity:4500kg Working voltage:380V/220V Working frequency:460 times/minute Equipment configuration:two main workers,two support frames,four stress releases Gross weight : 820kg Motor power: 3kw Control mode:Nicrocrystal regulator Main worker packing size:830*830*1130mm support frame packing size:830*600*1130mm colour:customized	US\$2100	
2	Chassis road simulator	DL-4.5YYJ Touch screen	Maxi.lifting height: 1100mm work temperature:-30°+50° Lifting capacity:4500kg Working voltage:380V/220V Working frequency:460 times/minute Equipment configuration:two main workers,two support frames,four stress releases Gross weight : 820kg Motor power: 3kw Control mode:Nicrocrystal regulator Main worker packing size:830*830*1130mm support frame packing size:830*600*1130mm colour:customized	US\$2200	
3	Chassis road simulator	DL-4.5YYJ Button version 3-way stethoscope, 1 headphones,	Maxi.lifting height: 1100mm work temperature:-30°+50° Lifting capacity:4500kg Working voltage:380V/220V Working frequency:460 times/minute Equipment configuration:two main workers,two support frames,four stress releases Gross weight : 820kg Motor power: 3kw Control mode:Nicrocrystal regulator Main worker packing size:830*830*1130mm support frame packing size:830*600*1130mm colour:customized	US\$2200	
4	Chassis road simulator	DL-4.5YYJ Touch screen 3-way stethoscope, 1 headphones,	Maxi.lifting height: 1100mm work temperature:-30°+50° Lifting capacity:4500kg Working voltage:380V/220V Working frequency:460 times/minute Equipment configuration:two main workers,two support frames,four stress releases Gross weight : 820kg Motor power: 3kw Control mode:Nicrocrystal regulator Main worker packing size:830*830*1130mm support frame packing size:830*600*1130mm colour:customized	US\$2300	

5	Chassis road simulator	DL-4.5YYJ Button version 6-way stethoscope, 2 headphones,	<p>Maxi.lifting height: 1100mm  work temprature:-30°+50°  Lifting capacity:4500kg  Working voltage:380V/220V  Working frequency:460 times/minute  Equipment configuration:two main workers,two support frames,four stress releases  Gross weight : 820kg  Motor power: 3kw  Control mode:Nicrocrystal regulator  Main worker packing size:830*830*1130mm  support frame packing size:830*600*1130mm  colour:customized</p>	US\$2300	
6	Chassis road simulator	DL-4.5YYJ Touch screen 6-way stethoscope, 2 headphones,	<p>Maxi.lifting height: 1100mm  work temprature:-30°+50°  Lifting capacity:4500kg  Working voltage:380V/220V  Working frequency:460 times/minute  Equipment configuration:two main workers,two support frames,four stress releases  Gross weight : 820kg  Motor power: 3kw  Control mode:Nicrocrystal regulator  Main worker packing size:830*830*1130mm  support frame packing size:830*600*1130mm  colour:customized</p>	US\$2400	
7	Chassis road simulator	DL-4.5YYJ Button version 6-way stethoscope, 2 headphones, 2 ladders	<p>Maxi.lifting height: 1100mm  work temprature:-30°+50°  Lifting capacity:4500kg  Working voltage:380V/220V  Working frequency:460 times/minute  Equipment configuration:two main workers,two support frames,four stress releases  Gross weight : 820kg  Motor power: 3kw  Control mode:Nicrocrystal regulator  Main worker packing size:830*830*1130mm  support frame packing size:830*600*1130mm  colour:customized</p>	US\$2380	
8	Chassis road simulator	DL-4.5YYJ Touch version 6-way stethoscope, 2 headphones, 2 ladders	<p>Maxi.lifting height: 1100mm  work temprature:-30°+50°  Lifting capacity:4500kg  Working voltage:380V/220V  Working frequency:460 times/minute  Equipment configuration:two main workers,two support frames,four stress releases  Gross weight : 820kg  Motor power: 3kw  Control mode:Nicrocrystal regulator  Main worker packing size:830*830*1130mm  support frame packing size:830*600*1130mm  colour:customized</p>	US\$2480
